DAY 2

On day 2 we tried to make out the different **sounds of the city**

We started at **Weinbergspark**

Felix heard undefined noises in his close surroundings, car noises inside the park and even noises coming from the pond!

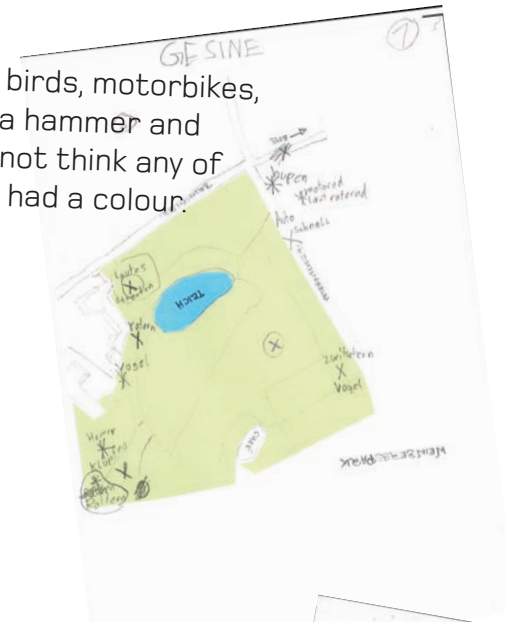

Gesine heard birds, motorbikes, loud arguing, a hammer and cars. She did not think any of these sounds had a colour.

Nanook heard noises only from the pond. Is there more to the pond in Weinbergspark than we know!?

Hammering, funny talking, fast cars and the birds. **Bianca** heard it all and even matched sounds with colours.

Julian heard a digger, a drill, noises behind us, a baby, builders near the pond and fast cars. Well done!

Isabel heard fast cars, tall people, a drill and a screaming baby... And last but not least Moran's mobile.

Then came **Zionskirchplatz**

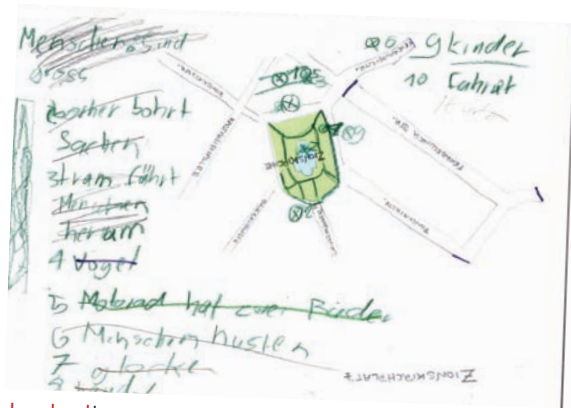

Bianca done great again, hearing green bicycles, grey annoying cars, colourful chirping, grey drilling, a loud motorbike and a "ding"...

Julian heard many noises including a drill, a motorbike, cars, a bell, birds and talking right next to us. Blimey!

Gesine's ears were reliable as ever catching sounds of bicycles, cars, the tram, a rustling bag, the birds and church bells!

Isabel's ears came to live in Zionskirchplatz and she heard, bicycles, trams, People, Birds, coughing, kids, bells, a drill, a motorbike and a mobile...

Felix heard the birds, cars, a construction site and a mysterious sound he could name nothing but "lote". And then, the church bells they went "doning doning"!

Nanook heard a mish mash of quiet, loud, fast and slow sounds from all around the church. What a lively mess!
